

## Finally, a survey dashboard that works for HR onboarding!

### SelectSurvey v5's Custom Dashboard functionality with ActiveLogic automation allows complex workflows for almost any process:

Have you been tasked with trying to develop a complex workflow and automate it with surveys and unable to find a solution? Now there is a solution! SelectSurvey Custom Dashboards with ActiveLogic workflows solves the most complex processes and makes them easy with a one stop shop of all the functionality you need for HR (or any other complex workflow).

The custom dashboard feature allows easy viewing of survey workflows for any workflow, but exceptionally for HR. Using ActiveLogic to tie multiple surveys together is perfect for automating an HR onboarding workflow from initiation, approvals, training, and beyond to employee reviews.

The screenshot shows the 'HR Onboarding Dashboard' interface. A sidebar on the left contains navigation options like 'Dashboards', 'Workspace', 'Help', 'Surveys', 'Libraries', 'Templates', and 'Email Lists'. The main content area includes a legend for survey actions, search fields, and a data table. Red callout boxes highlight the following features:

- Create as many dashboards as you like with the columns you choose**: Points to the 'Create Dashboard' button in the sidebar.
- Export Status Summary of all New Hires**: Points to the 'Export' icon in the table toolbar.
- Search**: Points to the search input field in the table toolbar.
- Real time status of new hires**: Points to the table data.
- Inline Comments and Approvals**: Points to the 'Comments' column in the table.
- Edit columns and options**: Points to the 'Columns' icon in the table toolbar.
